

Survey of the University Career of Female Scientists at Life Sciences versus Technical Universities UNICAFE is supported by funding under the Sixth Research Framework Programme of the European Union SAS6-CT-2006-036695

Beyond the Glass Ceiling: Women Academics in Engineering, Technology and Life Sciences across Europe

UNICAFE Dissemination Conference, Istanbul, November 12-13, 2008 Venue: Istanbul Technical University, Faculty of Architecture, 34437, Taksim, Istanbul, TURKEY

Women contributions to engineering, technology sectors and life sciences have been exponentially increasing in the last decade. On the other hand women still face great difficulties in developing professional careers in equal opportunities to those of men in these sectors, especially regarding their proportion and representation at the higher levels of hierarchical ladder. UNICAFE Project* (2006-2008) aimed to conduct a survey with seven partnering universities from six countries, on university career of female scientists at life sciences versus technical universities. Beyond the Glass Ceiling: Women Academics in Engineering, Technology and Life Sciences across Europe Conference aims to present the outcomes of UNICAFE project and to bring together the scholars and researchers from all over the world who are currently working on the current situation and future perspectives of Women Academics in engineering, technology and life sciences.

Conference will focus on enhancing and disseminating existing knowledge on career patterns of female scientists at universities. Conference also aims to draw the attention of the university management and decision makers to the importance of ensuring equal opportunities to women and men and the practice of gender mainstreaming as a policy of the European Union.

Conference welcomes papers on the following themes;

- Career path
- Access to resources
- Personal life and work balance
- Best practices
- Attracting female students and academic staff
- Future policies

Conference Organizing Committee:

Gülsün Sağlamer (ITŪ), Birgül Tantekin Ersolmaz (ITU), Ahsen Özsoy (ITU), Meltem Aksoy (ITU), Pelin Dursun (ITU), Evren Uzer (ITU), Ozge Atalay Celik (ITU), Maria Palasik (Budapest University of Technology and Economics), Katalin Füleki (Hungarian Science and Technology Foundation)

Conference Scientific Committee:

Maria Palasik (Budapest University of Technology and Economics), Mine Tan (Ankara University), Dóra Groó (Hungarian Science and Technology Foundation), Maria Schadt (University of Pecs), Zsuzsanna Szántó (Semmelweis University), Gülsün Sağlamer (Istanbul Technical University), Barbara Ötsch (Graz Medical University), Marina Tesauro (University of Tor Vergata), Margarete Durst (University of Tor Vergata), Vappu Sunnari (University of Oulu), Madli Krispin (Tallinn University of Technology), Anu Laas (Tallinn University of Technology)

Important Dates:

Deadline for submission of extended abstracts	15 August 2008
Announcement of accepted abstracts	15 September 2008
Conference	12-13 Nov. 2008

All abstracts and related questions should be sent to <u>info@womenacademics2008.org</u> Conference website: http://www.womenacademics2008.org

All conference presentations will be accessible from Beyond the Glass Ceiling Conference website. Organizing committee is in contact with refereed journals to publish selected papers in a special issue.

Extended abstracts will be 1000 words (besides bibliography and footnotes) in length.

* UNICAFE Project partners are; Hungarian Science and Technology Foundation *(coordinator),* Graz Medical University, Budapest University of Technology and Economics, Semmelweis University, Istanbul Technical University, University of Oulu, Tallinn University of Technology, University of Tor Vergata.
