Dear all

Please find attached the following documentation in order to help you prepare for the workshop. In case you have anything you would like to distribute before hand, please be so kind as to send it to me and I shall forward it to everybody else. [TECHNOETHICS]

- \* Justification for the workshop
- \* List of Participants
- \* Agenda
- \* A draft strategy paper prepared this summer setting some guidelines.

We should mainly work on this paper in order to prepare the "intention" paper.

I shall try also to send you later this week the questions to be asked to the different roundtable participants and also an one page draft "intention" paper. In the meantime if you have any ideas for this paper, please let me know.

I shall also be sending a copy of an advertising brochure for the session as well as a copy of proposed logos.

I am looking forward to seeing you in the workshop and thanks for your help

Regards

### Note for the File

#### **Subject: Justification for Workshop request**

Within the framework of the IST event, there will be a session dedicated to gender eQuality. The session aims to present role models for women who wish to participate more actively in the Information Society not only in terms of quantity (increase in numbers) but also quality (level of participation).

Within the session, a roadmap of future activities in the area as well as Logo for women and technology will be presented. The workshop participants will finalize the document which will be presented in the session and decide on the Logo. In addition, they will work on a small leaflet which will be distributed to the workshop participants including information about the speakers, common obstacles encountered, coping mechanisms, etc. The workshop will finalize this leaflet.

The workshop and conference session are part of a policy to promote gender and technology issues and raise awareness.

A N Pascall
