Irene Kamberidou de la Universidad de Atenas de la Facultad de Educación Física y Ciencias del Deporte nos comenta: "La investigación internacional indica que donde prospera el capital social, el resultado es que las personas, las comunidades, las organizaciones y las naciones prosperan económicamente, y no solos. Sin embargo, tengo que señalar la ambigüedad de las definiciones y la variedad de significados interrelacionados para el capital social. El capital social se refiere a la vida asociativa, la virtud cívica, la participación ciudadana, el servicio comunitario, la acción social, la cohesión social, los lazos sociales, la confianza, el valor colectivo de las redes sociales, la construcción de identidades más amplias, el respeto a la diversidad étnica, la diversidad racial y de género y la eliminación de las exclusiones socioeconómicas....")

 Abstract: The issue of gender equality has still been a global topic. This implies that male and female should be treated equally. In Indonesia, the realization of gender equality should be pursued by providing wider opportunities for females in various aspects such as in social ... <http://pdfs.semanticscholar.org/8ba0/a6157397cd6de7a8a74118dc6baffdf1843e.pdf>

The present study purposed to analyse interaction between teacher and student, content and teaching methodology to the Physical Education classes wherewith initial grade teachers and concomitant segregative process and implications there are behind them. The methodology was characterized by naturalistic observation with use of camera, besides the semi-structured interview realized with teachers adopting a qualiquantitative research at tree public schools located in Bauru’s city with 4 teachers, one for each grade. The teacher of first grade evidenced more attention and strict to ratify a standard of procedure to her classes, since beginning and exit of students, as well as technique to obtain silence and specification of content. Second grade’s teacher opts to distinguished procedure featuring the pleasure of fun, without obligation to student’s participation and exalting the dialogue. Third grade’s teacher detached for elevated table of emotional’s manifestations and affective ambit, and ending, fourth grade’s teacher gave priority to objective instructions besides constant positive avaliation as feedback to the students. With the present research it was effort identify successful actions and diverse practices, including coercitives, of possible changes by means of the teachers in theirs contexts of education. Key: interaction teacher-student,
